

# 3D Shop Materials

The 3D Shop provides a limited number of raw materials for use in the fabrication of many of your class projects throughout the year.

How it works:

1. The materials are paid for at the Art Cellar.
2. The student is given a receipt for their purchase.
3. The receipt is then brought to a 3D Shop staff member.
4. The receipt is initialed in ink and returned to the student.
5. The student is given the materials.

Materials provided in the 3D Shop store include:

Aluminum Ingots

Bronze Ingots

1/4" mild steel rod (10' length)

18 gauge mild steel sheet (2' x 4')

Poplar board (3/4" x 6" x 6')

PS2 plastic sheets for vacuum forming (16" x 22")

Vacuum bagging vinyl (54" x 1 yard)

***Prices subject to change.***
