Book printing/binding checklist:

Book file was created in InDesign (use [our template](#) as a guide!)

Document includes minimum .125" bleeds

Document respects minimum .125" safe area

Page count is multiples of 2 (multiples of 4 required for saddle stitch)

Document starts on page 1, setup as facing pages (reader spreads not imposed printer spreads)

Cover pages included in main document (*for saddle-stitch and twin loop wire only)

[Package your InDesign file\(s\)](#)

Compress folder(s) .zip files

PERFECT BINDING OR HALF-CANADIAN BINDING:

Separate cover file is included (use [our templates](#) as guides!)

Cover file includes ample bleeds and safe area

Spine width is accounted for in document

Spine is clearly indicated in file (use small lines in bleed area to designate spine area)

ADDITIONAL REQUESTS:

Cover flaps or foldouts, indicate in bleed area where folds occur

Page ranges on different paper stocks, clearly specify in notes

Inserts with different page sizes (foldouts, mini books, etc), include in separate document

Mock-up or clear diagram of final layout included

- **We will cancel your order if there is missing information, your files are incorrect, or otherwise unprintable**
- **Please keep an eye on your MCAD email**, we will contact you there if we have questions about your order
- **If bleed area is not included in file, you may lose important design elements (1/8" - 1/4" will be trimmed from edges)**
- Once your job is complete, we will charge the PaperCut account or department listed on your order form
- You will receive an email when the job is completed and on the pick up shelf
- See Knowledgebase and sample booklets for [Paper Types we have available](#)
- **If you have never used InDesign to create a book, please make an appointment with the Learning Center, or ask your instructor for guidance prior to submitting any book orders for print**
- We encourage you to [set up an appointment](#) with our staff to discuss your book project
