### **Resources from Student Counseling and Wellness Services**

The MCAD Student Counseling and Wellness Service provides assistance with the developmental, situational, and adjustment concerns common to many undergraduate and graduate students, as well as with mental health issues students may struggle with. As faculty, you often come into contact with students on a regular basis and thus are in an excellent position to help point students to resources that MCAD provides. Your attention and support as a faculty member will often be enough, but at other times a student may benefit from more specific professional help that is beyond the scope of your role. In these cases, students should be referred to the services provided by the MCAD Counseling and Wellness Staff.

For more information on the [Counseling and Wellness office](#), [referral process](#), and resources, visit the office's [Intranet](#) page in addition to some useful faculty-specific resources below.
