12:27:07 From lily berg : Hi yes we had concerns about the color of the commencement ceremony. The font is better, but still a bit difficult. There is also no contrast between the commencement color and the black font, which means it is still not readable/too difficult to read
12:27:53 From Morgan M. : To clarify about summer access, does that include personal studios, and do we need to fill out any forms to keep access to that through the summer?
12:28:28 From Aurora Wolfe : for the single image to commencement, are we able/allowed to make that a digital collage of like multiple art pieces in one image? also , on the front of summer access, how long do alumni have access to programs like the adobe suite!!
12:28:31 From Taylor Guntharp : can we pick up our diplomas from the school if possible? I know personally i will be moving during august and would rather pick up if possible
12:28:45 From malchus l : (also, summer access -- when does our email/server access get shut down?)
